

First you make a purple background then one small black circle at the top. Then one medium black circle then a big one at the bottom they should touch. Then medium blue sun glasses on the small circle where the eyes should be. LOTS of red 8 dots not very big down the center like buttons. Two big happy faces at the bottom and two calm blue faces above and next you make five really big blue snowflakes. A hat that looks like stairs (any-color) and a light blue peace hand. Slightly tilted up for the arm and a light green hand the same way as the other one and thats all!!!!
